

Applied Remote Sensing Training (ARSET) Webinar

Introduction to Global Precipitation Measurement (GPM) Data and Applications

Three 1-hour Sessions, Dates: 24, 31 March and 7 April, 2015

Each session will be held two times a day to allow national and international participation from different time zones: Time: 8-9 AM and 1-2 PM Eastern US

Presentation documents will be available in English and Spanish

Webinar Registration will open in January 2015 on <http://arset.gsfc.nasa.gov>

Agenda:

- Week-1 Introduction to Precipitation Remote Sensing and Overview of TRMM, Introduction to GPM Mission and Sensors, Examples of Precipitation Data Applications
- Week-2 Overview of GPM Data Products and Data Access
- Week-3 GPM-IMERG Product (Guest Speaker Dr. George Huffman, NASA)
Live Demonstration of GPM Data Access and GIS Applications
