

# Earth Observations for Monitoring the UN Sustainable Development Goals

July 30 - 31, 2018

Partners: NASA ARSET, UN-GGIM, GEO

## Monday, July 30

- 10:00 - 10:30 The Global Framework: a Geospatial Vision
- 10:30 - 11:00 Earth Observations in Service of the 2030 Agenda
- 11:00 - 11:30 Break
- 11:30 - 12:00 The Regional Perspective: Latin America and the Caribbean
- 12:00 - 12:30 National Perspectives
- 12:30 - 13:00 Data Cubes
- 13:00 - 13:30 Discussion
- 13:30 - 14:30 Lunch
- 14:30 - 15:00 Overview of SDG 6 and Indicator 6.6.1 and 6.3.2
- 15:00 - 16:00 Demonstration of Water Quality Data Access Using Online Portals
- 16:00 - 17:00 Acquiring Satellite-Based Water Quality Data for SDG 6.6.1
- 17:00 - 18:00 Discussion
- 18:00 Adjourn

## Tuesday, July 31

- 10:00 - 10:30 Overview of SDG 15
- 10:30 - 11:30 Introduction to Remote Sensing for Assessment of Land-Related SDGs
- 11:30 - 12:00 Tea Break
- 12:00 - 12:30 Overview of Target 15.1 and Indicator 15.1.1
- 12:30 - 13:30 Overview of Data Portals and Tools for Visualizing and Acquiring Land Data
- 13:30 - 14:30 Lunch Break
- 14:30 - 15:30 Overview of Target 15.3 and Indicator 15.3.1
- 15:30 - 17:00 Overview of Change Detection and Supervised Land Cover Classification Data
- 17:00 - 18:00 Q&A, Review, and Discussion
- 18:00 Adjourn

ARSET empowers the global  
community through remote  
sensing training.
