IDEA Exercise

The purpose of this exercise is to gain some familiarity with the features available from the Infusing satellite Data into Environmental Applications (IDEA) website.

http://www.star.nesdis.noaa.gov/smcd/spb/aq/index.php

1. Click on Modis (Aqua) tab.

2. Click on "Plots of MODIS Terra RGB and aerosol optical depth (AOD)"
   |
3. Begin by navigating to July 27, 2014. The hour should be 2015. Click Go.

   a. At the bottom of the page click AOD KML to download.

   b. At the top of the page, Click Next Forecast Day to download the KML file for the 29th of July.

4. Repeat until you have downloaded the KML files for the 4 dates before and after the AOD events in Canada (July28-Aug3, 2014).
